

DOT REGISTRATION INFO

MFR Default

Manufacturer names are automatically defaulted for you when the SKU and “raw size” for an item matches a master tire database. If no match is found, we attempt to match the Mfg Code entered for the item in your inventory master with the master tire database. Please note that the master tire database primarily contains “flag” brand and selected popular private label tires only.

BPOS is NOT configured to transmit DOT registration data to the CIMS Tire Registration service. Please contact the HITS Technical Support Center and request that BPOS be set to transmit data to CIMS. Please note that CIMS requires that you subscribe for the actual registration service, which is a separate fee paid directly to CIMS. For more information, click the button below to subscribe to CIMS.
